

CAPABILITIES STATEMENT

Company Overview

Kajaer is a ND women-owned technical consulting business that specializes in Geospatial Information Systems (GIS). Our services include but is not limited to, mapping, data management, survey support, drone technology, report production, and technical & theoretical training. The company's founders have extensive experience and background in GIS, geography, natural resources, engineering, and education. Our specialty is the ability to quickly enhance any business team that needs GIS and data management support regardless of the team or project's size.

Services

- Implementing and Managing Geographic Information Systems Mapping
- Technical Training
- Natural Resource Management

Differentiators

- Unique combination of GIS, environmental, and educational services
- Ability to transfer and receive data from multiple platforms
- Maximize value for client who needs technical expertise and specific task management without extensive time commitment
- Provide instructional training in addition to performing technical applications
- Experience with managing government contract at the Federal, State, and Local Levels
